THE MARBLE QUARRIES IN CARRARA AND THE LARD OF COLONNATA

Departure from the structure at the agreed time in the direction of CARRARA.

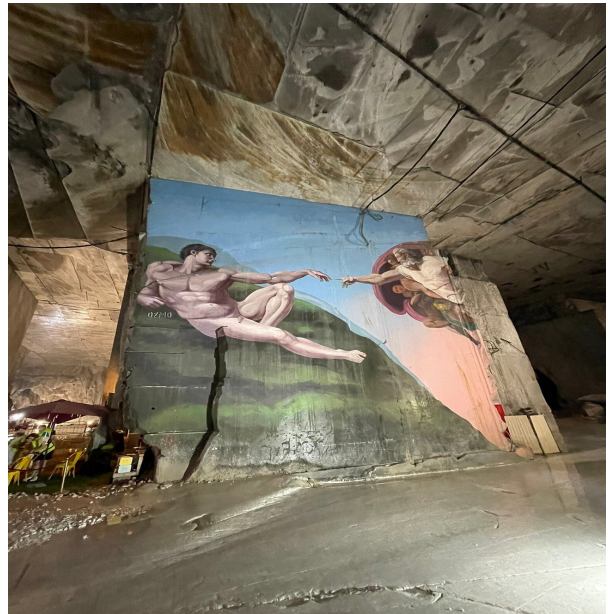

During the day, is planned a guided tour of the most beautiful quarry in the world will be carried out with dedicated vehicles.

The internal temperature is around 16 degrees constant, the marble floor could be wet so we recommend wearing comfortable shoes and sweatshirts or jackets.

During the tour, the staff will explain to you how the quarry was born and what the extraction techniques are, you can also admire the 160 m2 mural that represents Michelangelo's *Genesis* by the street artist Ozmo.

In the quarry there is also a small classic method wine cellar and a souvenir corner.

During the tour, you can see the machinery that is used for the excavation and the workers who at some times could be at work.

After the visit, tasting of the famous "Lardo di Colonnata" at the Lardereria of the Colonnata station. The «Lardo di Colonnata» is obtained from cuts of meat corresponding to the adipose layer (cleaned of the juicy part) that covers the back from the occipital region to the buttocks and that laterally reaches up to the belly. In the afternoon is also included a free visit to the center of Colonnata.

Return to the structure of origin.
